

China SunSine Chemical Holdings SGX listing 10th anniversary speech

by Chew Sutat, Head of Equities and Fixed Income, SGX,

28 July 2017

1. A very good afternoon to all of you, and congratulations to Liu 总 and your team on the 10th anniversary of China SunSine's listing on Singapore Exchange.
2. Looking back at the past decade, I believe it is fitting to say that it had been a decade of growth for China SunSine. Since your trading debut on 5 July in 2007, China SunSine's revenue enjoyed a compounded annual growth rate of 14%, and you are today the top producer of rubber accelerators globally, serving over 1000 customers around the world. Of these, more than 65% of them are amongst the Global Top 75 tire makers, including Bridgestone, Michelin, Good Year and Yokohama.
3. Rising income and increased urbanization had helped drive demand for the automotive and tyre industries in China. With your large production scale and strong R&D capabilities, the company was well-positioned to tap into this growth opportunity.
4. Over the years, you continued to improve your manufacturing and environmental protection capabilities, which had in part allowed you to rise above your competitors when the Chinese government started imposing more stringent environmental protection measures on companies from 2014 onwards. You have set yourself as a clear example of how a company could benefit in tangible ways, by having strong safety and environmental internal controls.
5. I am also heartened to note that in the pursuit of business growth, the company had also taken steps to strengthen investor relations. For this reason, you are holding an investor and shareholder briefing today, providing investors an opportunity to engage with the management of the company, outside of the annual general meetings.

6. SGX is an advocate for investor relations, as we believe that IR is key to driving and maintaining investor interest, and is what makes a listed company's listing journey a fruitful one. Not only do we encourage companies to engage in active investor relations, we support them in this endeavor too, through our regular corporate access events and profiling of listed companies through the SGX Corporate Connects and Kopi-C articles.

7. Before I hand back the floor for you to interact with your investors, on behalf of my colleagues at SGX, I'll like to once again congratulate China Sunshin on this milestone; and as your listing platform, we certainly look forward to continually supporting you in your future growth plans. Thank you!
