Notes to Statements of Financial Position

Note (1) Property, plant and equipment decreased by RMB 13.4 million from RMB 562.8 million to RMB 549.4 million mainly due to depreciation charged offset by additions to construction in progress and property, plant and equipment.

Note (2) Inventories increased by RMB 3.9 million from RMB 141.5 million to RMB 145.4 million due mainly to the increase in the cost of raw materials, as a result of increased raw material prices. The increase is partially offset by the decrease in finished goods as the Group sold more products in FY2016.

Note (3) Trade receivables increased by RMB 134 million from RMB 413.5 million to RMB 547.5 million due mainly to the increase in notes receivables which are not due at the end of December 2016. Trade receivables included notes receivables provided by trade debtors which were promissory notes issued by local banks. Consequently, the risks of non-recoverability of these notes receivables by local banks are significantly lower than those amounts owing by trade debtors. As at 31 December 2016 and 31 December 2015, the notes receivables were RMB 150.2 million and RMB 72.3 million respectively. Excluding the notes receivables, the trade receivables from trade debtors would have increased by RMB 56.1 million from RMB 341.2 million to RMB 397.3 million. This increase was mainly due to higher sales in 4Q2016 as compared to 4Q2015.

The aging report of our trade receivables as at 31 December 2016 was as follow:-

	1 – 3 months	3 – 6 months	6 – 12 months	> 12 months	Total
	RMB' million	RMB' million	RMB' million	RMB' million	RMB' million
Notes receivables	150.2	-	-	-	150.2
Trade receivables	368.5	29.7	0.7	11.2	410.1
Allowance for impairment	(0.3)	(0.6)	(0.7)	(11.2)	(12.8)
Net trade receivables	518.4	29.1	-	-	547.5

Note (4) Trade payables increased by RMB 9.2 million from RMB 43.0 million to RMB 52.2 million due mainly to the increase in prices of raw materials purchased at the end of 2016.

Note (5) Other payables increased by RMB 3.1 million from RMB 167.3 million to RMB 170.4 million due mainly to accruals being provided for in relation to operating expenses.

Note (6) Bank loans decreased by RMB 144.9 million from RMB 144.9 million to NIL due to repayment made during the year.

Commentaries on performance

The Group's **4Q2016 revenue** increased by 22% to RMB 553.4 million as compared to RMB 453.8 million in 4Q2015, due mainly to sales volume having increased by 19% to 34,460 tons as compared to 29,045 tons in 4Q2015, as well as the increase in overall Average Selling Price ("ASP").

On a 12-month basis, the Group's **revenue** increased by 10% to RMB 2,036.9 million as compared to RMB 1,859.1 million in FY2015, due mainly to the increased sales volume.

ASP for all products increased by 3% to RMB 16,000 per ton in 4Q2016 as compared to RMB 15,566 per ton in 4Q2015, and increased by 8% as compared to RMB 14,849 per ton in 3Q2016. The increase in ASP was mainly due to the Group being able to pass on some of the increased costs in the price of our raw materials to its customers.

However, on a 12-month basis, the ASP decreased by 8% to RMB 14,956 per ton in FY2016 as compared to RMB 16,190 per ton in FY2015, due mainly to the Group's focus on growing sales volume and market share.

4Q2016 Sales volume for Accelerators, IS and Anti-oxidant products increased by 12%, 28% and 35%, respectively. This is due mainly to more orders being received from tire makers, as some of our main competitors' production were forced to cease by local government due to smog "red alert" declared by cities in northern China (especially in Tianjin, and Henan).

On a 12-month basis, the Group's sales volume across all categories continued to increase to a new record high, totaling 135,791 tons, equivalent to approximately 19% increase as compared to 114,572 tons in FY2015.

Gross profit for 4Q2016 increased by 41% to RMB 150.5 million from RMB 106.6 million in 4Q2015, while the Gross Profit Margin ("**GPM**") increased by 3.7 percentage points from 23.5% to 27.2%. The increase was due mainly to the decrease in unit costs of finished goods as a result of higher production.

On 12-month basis, gross profit increased by 11% from RMB 492.0 million in FY2015 to RMB 547.1 million in FY2016. GPM also increased slightly by 0.4 percentage points from 26.5% to 26.9% due mainly to lower unit costs.

Other income decreased from RMB 26.2 million in 4Q2015 to RMB 7.7 million in 4Q2016, due mainly to prior year reversal of long aged payables of RMB 15.2 million, and recognition of negative goodwill from bargain purchase of RMB 7.1 million due to the acquisition of Shandong Fulong Villa Co., Ltd below valuation.

On a 12-month basis, other income decreased from RMB 38.7 million in FY2015 to RMB 14.7 million in FY2016 due mainly to the two reasons mentioned above, offset by higher foreign exchange gain in FY2016.

Selling and distribution expenses increased by 7% from RMB 18.4 million in 4Q2015 to RMB 19.7 million in 4Q2016. On a 12-month basis, selling and distribution expenses increased by 8% to RMB 73.1 million as compared to RMB 67.9 million in FY2015. The increase was due mainly to higher freight cost and port charges incurred which is consistent with the increase in sales volume.

Administrative expenses increased by 20% from RMB 32.4 million in 4Q2015 to RMB 39.0 million in 4Q2016, due mainly to (i) a reversal of RMB 10.0 million R&D expenses recorded in 4Q2015; (ii) higher staff salaries by RMB 3.7 million, higher staff welfare by RMB 1.7 million, and

higher other miscellaneous expenses by RMB 2.7 million; offset by (iii) decrease in allowance for impairment of receivables of RMB 6.1 million; (iv) RMB 5.4 million “Safety Production” accrual which was reversed out in 4Q2016.

On a 12-month basis, administrative expenses increased by 6% from RMB 162.5 million in FY2015 to RMB 172.1 million in FY2016, due mainly to (i) higher staff incentive and welfare by RMB 6.2 million, higher social insurance by RMB 6.0 million, higher depreciation and amortization by RMB 2.0 million, higher Safety Production cost by RMB 2.4 million, higher sewerage charge by RMB 2.0 million, and higher other miscellaneous expenses by RMB 4.3 million; offset by (ii) impairment for trade receivables recorded in FY2015 of RMB 10.6 million, as opposed to a reversal of RMB 2.7 million in FY2016. The net impact was a decrease in administrative expenses of RMB 13.3 million.

Other operating expenses amounted to RMB 0.3 million in 4Q2015. On a 12-month basis, other operating expenses amounted to RMB 2.8 million, consisting mainly of donations.

Finance cost decreased by 56% from RMB 0.9 million in 4Q2015 to RMB 0.4 million in 4Q2016 due mainly to the decrease in bank borrowing. On a 12-month basis, finance cost decreased 59% from RMB 10.4 million in FY2015 to RMB 4.3 million in FY2016 due to decreased bank borrowing.

Due to increase in sales revenue and gross profit, **Profit before tax (PBT)** increased by 22% from RMB 81.0 million in 4Q2015 to RMB 98.8 million in 4Q2016. On a 12-month basis, PBT increased by 8% from RMB 287.5 million in FY2015 to RMB 309.5 million in FY2016.

As a result, **net profit attributable to shareholders (PAT)** increased by 46% from RMB 45.5 million in 4Q2015 to RMB 66.3 million in 4Q2016, and FY2016 PAT increased 14% from RMB 195.2 million in FY2015 to RMB 221.7 million.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

In paragraph 10 of 3Q2016 results announcement, the Company stated that “our selling prices will not increase significantly”, and that “we will continue to maintain equilibrium in production and sales volume for sustainable growth.” Therefore, the current results are in line with the Company’s commentary in paragraph 10 of its previous quarterly results announcement.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

China’s GDP growth rate was 6.8%¹ in 4Q2016, and 6.7% for the whole year of 2016, the slowest growth rate since 2009. She may face the risk of further slowdown in 2017. However, China’s auto industry continued to grow. Automakers sold a total of 28.03² million units in China in 2016, representing 13.65% growth in auto sales year-on-year.

Globally, with Trump’s Presidency and Brexit, the global economic situation has become even more uncertain; International crude oil prices have continued its volatility, which resulted in the fluctuation of our raw material prices, and consequently our gross profit margin may come under pressure.

Locally, environmental regulations in China are getting more and more stringent, and environmental protection inspection has become more frequent. The smog situation in China has also become more severe and frequent. Whether on its own or taken together, the factors mentioned above may affect our production in the future.

Our Group will continue to focus on growing sales volume and market share to achieve economies of scale, which we believe is the right strategy in the current uncertain economic environment. We will continue to maintain equilibrium in production and sales volume for sustainable growth. We remain cautiously optimistic for our performance in the next 12 months.

Project updates

The construction and installation of machineries for our Phase 1, 10,000-ton TBBS production line was completed at the end of 2016, and the machineries are undergoing testing before the production trial run, which is scheduled to commence in 2Q2017.

The Group is also expanding its Insoluble Sulphur (“IS”) capacity by adding-on one 10,000-ton production line in its Ding Tao factory. The new 10,000-ton IS production line will cost less than RMB 50 million, and it is expected to be completed by 3Q2017.

In addition, one of the Group’s subsidiaries, Shanxian Guangshun Heating Co., Ltd, has started its expansion to add one boiler and one electricity generator, in order to cope with the higher demand for steam. The budget for the expansion is RMB 100 million, and it is expected to be completed by end of 2017.

All above expansion will be funded by internal resources, and are not expected to have any material impact on the net tangible assets per share or earnings per share of the Group for the coming financial year ending 31 December 2017.

Save as disclosed above, none of the Directors, or controlling shareholders, or substantial shareholders of the Company, has any interest, direct or indirect, in the above transactions.
