POSITIVE PROFIT ALERT

The Board of Directors (the “**Board**”) of China SunSine Chemical Holdings Ltd. (the “**Company**”, and together with its subsidiaries collectively, the “**Group**”) wishes to inform shareholders and potential investors of the Company that, based on the preliminary assessment of the information currently available to the Board, including the unaudited financial statements for the 4th quarter and full year ended 31 December 2017 (“**4Q2017**”), the Group is expected to report a substantial increase in consolidated net profit, compared to the corresponding period from 1 October 2016 to 31 December 2016 as well as full year 2016.

The expected profit growth is mainly due to the increase in both average selling price (“**ASP**”) and sales volume of the Group’s products. As disclosed in several of our prior results announcements, the Chinese government has been placing more emphasis on environmental protection, and more frequent environmental protection inspections were conducted. Some players in the rubber chemical industry which failed to meet the relevant environmental regulations were forced to suspend their productions. This had resulted in the short supply in the market and accordingly, the Group was able to sell more products and increase its ASP.

The above information is based on the preliminary assessment made by the Board. The Company is in the process of finalising its unaudited consolidated results for the reporting period, and the results announcement for 4Q2017 and full year 2017 will be released on 28 February 2018.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the securities of the Company.

BY ORDER OF THE BOARD

Xu Chengqiu
Executive Chairman
12 February 2018
